

SHRI. GANESHAN SUBBIAN

M/w: [+919884885466](tel:+919884885466) | ganesansadvocate@gmail.com

Born into a traditional business family on 21st January 1967 at Nagercoil, Kanyakumari, a simple town rich in culture in the southernmost part of India. A hard-core C++ technocrat ; Industry Speaker On CTI technology for Intel Asia Inc. ; Developed an indigenous Computer Telephony Integration module to serve the masses ; Legal Strategist -Mediation Advocate - Jurisprudence Researcher; Avid Cricketer with a philosophical bent of mind, an interesting turn of life events led him to enter the legal profession and gain the following insight:

1. The existing legal system is losing it's true purpose of entity, mostly benefiting the mighty and becoming a dream to the needy and the poor.
2. Despite the high costs of litigation, the outcome of a legal battle does not guarantee justice but only judgements.
3. There exists no fool proof legal mechanism that can extract the truth to assist the Judges in delivering justice beyond the evidence produced before the court.
4. Knowledge is free; however, we pay for ignorance

With a hope to get a true justice system rather than a legal system that delivers just judgements, he attempts to contribute in improving 'The Rule of Law & Jurisprudence' by way of sustainable research and a model Hamlet with 'No Litigation but Mitigation through Mediation and/or Arbitration'.

PROFESSIONAL ENDEAVOURS

Harvard Law School - Negotiation training by Professor Eileen Babbitt @ CAIL, USA.
