## ALUMNI FEEDBACK

"The Summer Camp was organized with great care, from the selection of panels to the selection of participants, mixing lawyers with legal counsel and other legal scholars. I appreciated the discussions during panel presentations and with all of the participants throughout the day. I also enjoyed the pétanque tournament although it was not as relaxing and carefree as I expected it would be! I most enjoyed the informal conversations with other participants and everything was purposefully designed to cultivate them."

"The social activities of the Summer Camp made it easy to bond not only with other participants but also with the organizers and speakers. The atmosphere was very good, and everyone was open to discussion and interaction."

**Manon Alexandre-Bresdin**

"The workshops I preferred were the ones with a lot of exchanges with the room. The one on arbitration cross examinations was for instance very interesting. The topics were interesting, I liked that we focused a lot on AI as it is really something that will change our practice."

"Best part was the drinks and lunch Place Dauphine ! My biggest takeaway is discussing with everybody about their professional experience and past/current transitions to join a company or build a law firm."
